

OFFICE REPORT

Clark County | August 2008

SUMMARY | TOTALS

This month saw positive absorption due to a large user occupying roughly 11,000 square feet in the Columbian Building and some additional smaller deals throughout other submarkets. Some absorption was also due to the addition of a few buildings to the report that were previously omitted because they were deemed either retail or non-class A or B but have since been added raising the total square footage as well as the total occupied space.

We are still seeing the status quo though with some deals still being done but at a slower pace and with aggressive deal points being negotiated to the Tenant's benefit. Lease renegotiations between Landlords and current Tenants are very prevalent in the market today with many Tenants negotiating their lease back down to their previous 5-year starting rate.

Average Vacant Class A & B Rental Rate <i>(Adjusted Annual Full Service Basis)</i>	\$20.66
Month Over Month Net Absorption (sq. ft.)	48,188
