Clark County | October 2013

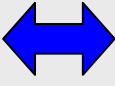

## SUMMARY | TOTALS

Another solid month with a continued reduction in the vacancy rate. Activity still seems steady with the greatest action in owner-user sales, second generation leases under 2,500 square feet and expansions of existing tenants.

Moving forward, I do not see any reason that the trend should not continue. Vacancy rates should continue to decline which shall continue to put upward pressure on rental rates. As more quality second generation spaces become more rare, the market will finally develop some of the challenged and/or first generation spaces that have been plaguing the market for some time.
